She writes candidly about the challenges she faced, the mistakes she made, and the lessons she learned. *Fuckery* is a must-read for anyone who wants to understand the 2020 election and the role that Williamson played in it.

Williamson's Rise

Williamson's journey to the Democratic primary began in 2018, when she announced her candidacy for Congress in California's 33rd district. She ran on a platform of love, compassion, and healing, and her message resonated with voters who were tired of the divisive politics of the Trump era. Williamson won the primary but lost the general election to Republican incumbent Dana Rohrabacher.

Undeterred by her loss, Williamson announced her candidacy for president in January 2019. She quickly gained attention for her unconventional campaign, which focused on spirituality, self-help, and personal transformation. Williamson's message appealed to voters who were looking for an alternative to the traditional candidates in the race. She raised millions of dollars and drew large crowds at rallies.

Williamson's Fall

However, Williamson's campaign also attracted controversy. Critics questioned her qualifications for office, her lack of experience in government, and her unorthodox policies. Williamson was also criticized for her association with the New Age movement and her belief in crystals and energy healing.

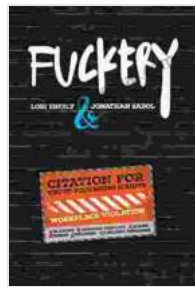

As the primary season wore on, Williamson's support began to dwindle. She failed to qualify for several debates and her polling numbers dropped. In March 2020, Williamson suspended her campaign and endorsed Bernie Sanders.

Williamson's Legacy

Despite her unsuccessful campaign, Williamson left a lasting impact on the 2020 election. Her message of love, compassion, and healing resonated with many voters, and she helped to bring these issues to the forefront of the national conversation. Williamson also showed that it is possible to run a successful campaign without relying on traditional political tactics.

In *Fuckery*, Williamson reflects on her campaign and shares her thoughts on the future of American politics. She writes that she believes that the country is in need of a spiritual awakening and that she is committed to working towards a more just and equitable society.
