What is a Testamentary Trust?

A testamentary trust is a legal arrangement created within your will, which takes effect after your passing. It allows you to transfer your assets to a designated trustee, who will manage and distribute them according to your wishes, ensuring your legacy remains intact.

Benefits of Establishing a Testamentary Trust

- **Asset Protection:** Trusts can safeguard your assets from creditors, lawsuits, and estate taxes, preserving your wealth for future generations.
- **Estate Administration:** Trusts simplify the probate process, reducing costs, delays, and public scrutiny associated with the distribution of your estate.

- **Flexibility:** Trusts offer flexibility in managing and distributing your assets, accommodating your unique circumstances and beneficiaries' needs.
- **Privacy:** Unlike wills, trusts are not public records, maintaining the privacy of your financial arrangements and the distribution of your assets.
- **Control:** Through a trust, you can retain control over your assets even after your passing, ensuring your wishes are carried out as intended.

Types of Testamentary Trusts

There are various types of testamentary trusts, each serving specific purposes and beneficiary needs. The most common types include:

- **Revocable Living Trust:** This trust allows you to retain control over your assets during your lifetime, with the option to modify or revoke it as needed.
- **Irrevocable Living Trust:** Once established, this trust cannot be altered or terminated, providing permanent protection for your assets.
- **Testamentary Charitable Trust:** This trust distributes a portion of your assets to a designated charity, reducing estate taxes and supporting your philanthropic goals.
- **Special Needs Trust:** This trust is designed to provide for individuals with disabilities, ensuring their financial security while maintaining their eligibility for government benefits.
- **Generation-Skipping Trust:** This trust allows you to pass assets directly to your grandchildren or future generations, potentially

reducing estate taxes.
