An Excerpt from The Baby and the Drive

"I remember the day we brought our son home from the hospital. He was so tiny and perfect. We were so happy to finally have him in our arms. But our joy was short-lived. Just a few weeks later, he was diagnosed with a rare and fatal genetic disorder. We were told that he would not live past his first birthday.

The news was devastating. We couldn't believe that our precious son was going to be taken from us so soon. We spent the next few months living in a state of suspended animation. We cherished every moment we had with him, but we also knew that the end was coming.

When our son finally passed away, we were heartbroken. We didn't know how we could go on without him. But we had to find a way, for the sake of our surviving daughter.

A few weeks after our son's death, we decided to take a cross-country road trip. We needed to get away from everything and try to heal. We packed up our car and set off on a journey that would change our lives forever.

The Baby and the Drive is a story of love, loss, and redemption. It is a story of a mother's journey through grief and her ultimate triumph over adversity. Sarah Thebarger's memoir is a powerful and inspiring reminder that even in the darkest of times, we can find hope and healing.
