

Tiger Tank: The Epic Battles of the German Panzerwaffe

By Marcus Cowper

The Tiger tank was one of the most feared and respected weapons of World War II. Developed by the Germans in response to the Soviet T-34 tank, the Tiger was a formidable opponent on the battlefield. It was heavily armored, well-armed, and incredibly powerful.

In this book, renowned military historian Marcus Cowper provides a gripping and comprehensive account of the development, deployment, and combat history of the Tiger tank. Cowper draws on a wealth of primary sources, including firsthand accounts from veterans, to tell the story of this iconic weapon of war.

Cowper begins by examining the origins of the Tiger tank. He describes the German army's need for a new tank to counter the Soviet T-34 and the design process that led to the development of the Tiger. He then follows the Tiger into battle, describing its role in some of the most iconic battles of World War II, including the Battle of Kursk and the Battle of the Bulge.

Cowper also provides a detailed analysis of the Tiger's technical specifications and combat performance. He examines the tank's armor, armament, and mobility, and he compares it to other tanks of the era. He also discusses the Tiger's strengths and weaknesses, and he assesses its overall impact on the course of World War II.

Tiger Tank: The Epic Battles of the German Panzerwaffe is a must-read for anyone interested in military history, tanks, or World War II. Cowper's writing is clear and engaging, and his research is impeccable. This book is a valuable addition to the literature on the Tiger tank and a worthy tribute to one of the most iconic weapons of war.
