WWII Built Ships is divided into six chapters, each of which covers a different type of ship. The chapters are:

- Battleships
- Battlecruisers

- Cruisers
- Destroyers
- Submarines
- Aircraft carriers

Each chapter begins with a brief overview of the type of ship, including its history, development, and design. Jordan then provides detailed descriptions of specific ships, including their armament, armor, and performance. The book is lavishly illustrated with photographs and diagrams, which help to bring the ships to life.

WWII Built Ships is an essential reference for anyone interested in the ships of World War II. It is a comprehensive and authoritative guide that is packed with information. The book is also a pleasure to read, thanks to Jordan's clear and engaging writing style.
